## President Message:

***Welcome everyone, to 2017 and our first meeting with the new board and new faces!***

I will be your president this year, and am looking forward to many good meetings with good friends. We are going through quite a cold stretch as I write this, but it is supposed to be much warmer this weekend so I hope the weather doesn't keep you away. It is January, after all.

Our speaker this month will be Dana Clark, long time advisor to the club and my personal avian veterinarian since 1994. Just a few days ago he moved permanently to Cache Valley and joined a veterinarian practice up there, so I guess I have to get myself a new vet. I will miss him, and I am sure many of you will as well. He is going to talk about the various routine tests that vets conduct on birds, and why and what they show or prove. So if you want a better understanding of what is going on when you take your bird in for a check, do not miss this meeting! See you all there.

2017 WAES President
