

W.A.E.S.

Wasatch Avian Education Society

September 2019

Please join us for our monthly meeting on Saturday evening. We will be watching an interesting video about understanding parrot behavior and tips on working with our birds. As usual there will be the raffle table of fun and useful prizes, snacks and socializing.

### **Fun Parrot Fact: Parrots Taste With the Tops of Their Beaks**

Though parrots do have some taste glands at the backs of their throats, most of their 300 or so taste buds are located on the roofs of their mouths. Compared with the 10,000 taste buds in a human mouth, the birds' palate may not seem like much, but parrots do show definite preferences for certain foods.

### **Adoptions:**

We are happy to report that over the summer, a few birds were adopted from WAES. Rose, a scarlet macaw was adopted by Austin Vance. Joey, Quaker Parrot, went home with Gigi Romney, and Lola, Sun conure, now lives with Ruth Williams. Congratulations and best wishes to all!

### **Monthly Meeting**

September 14, 2019

7:00 pm

### **Salt Lake County Complex**

2001 S. State Street

Room N1100

(North Building)

Our meetings are free and open to the public. Come meet other parrot enthusiasts.

Refreshments & Raffle Table

Come see what our volunteer

Flock is all about.
