### President's Message

Dear All;

Well, we are getting closer, more businesses are opening, but we received an email a few days ago from the County Complex saying still nothing allowed there still. So we will not be having a meeting in May either. But I am pretty confident that we will in June (I hope) and we now have a concentration of excellent speakers since we lost two months of meetings, so it is an ill wind that blows no good. I can't wait to see all of you again, get some great information, listen to you tell me what cute things your bird just did, and in general be around people who don't think I am weird because I love parrots. So see you soon, missing you all very much!

Chase Kimball, WAES President

### Other news:

We have received many new applications to foster birds over the last couple of months, which is wonderful. We have had one adoption; **Percy the cockatiel**, has gone to live with Susan Zuckerman and family. Congratulations!!

Also, the **American Federation of Aviculture** (AFA) annual meeting that was to take place in Salt Lake City this August has unfortunately been cancelled for this year.

In lieu of a meeting and speaker, this link will take you to an informative and interesting article about parrot behavior, by Utah's very own Dr. Susan G. Friedman, Professor of Psychology at Utah State University. Enjoy!
